

Experience the etamax spirit? Then apply as

Software Developer (m/f/d)

(eta_S-BS_226) Location: **Braunschweig, Darmstadt, München, Zittau**

WHAT WE DO – AND WHY

etamax space is a technology oriented and growing company. We provide software engineering and quality assurance services for safety- and business-relevant software and systems. Our national and international customers are manufacturers in aeronautical and aerospace engineering, transportation technology and the automotive industry

YOUR TASKS

- Design and implementation of individual software solutions applying high quality standards
- Planning, specification, implementation, execution, and analysis of automated test cases

YOUR QUALIFICATION

- Education as an IT specialist in application development or degree in information technology
- At least 2 years of professional experience as a software developer in OOP (Java, C++, C#, Kotlin); Python knowledge would be a plus
- Practical experience in implementing software development processes
- Experience in modelling data
- Knowledge of test automation, preferably including surface test automation
- Experience with GitLab, Git and Jenkins
- Ability to work independently
- Good communication skills
- Very good knowledge of English and German (min. B2)

WHAT WE OFFER YOU

- Interesting projects in a technologically attractive environment
- Exciting topics and an open, friendly, and collegial atmosphere
- Project responsibility
- Flexible working hours, flat hierarchy, excellent development opportunities
- A committed team with always open doors
- Fruit basket (organic) as well as coffee and water in abundance
- Regular team events with games, sports, and fun
- Job bike, active breaks, and stress training
- colleagues from all over the world
